

ROLE DESCRIPTION

COMPANY: Lymington Precision Engineers Co Ltd (Senior PLC Group)

JOB TITLE: **Integrex Machinist**

REPORTING TO: **Production Manager**

LOCATION: Based at LPE, Gosport Street, Lymington, Hampshire, SO41 9EE

SCOPE AND PURPOSE OF THE JOB:

Ensuring the best manufacturing techniques are carried out within the Integrex Machine Shop by practical application of the most appropriate methods of programming, setting and operation of the machine tools and to stimulate an atmosphere of continuous improvement.

Duties and responsibilities

1. Programming, setting, and operating as required, all machines within the cell.
 2. In conjunction with the Team Leader, ensuring that the methods, tooling and fixtures used effectively achieve a cost-effective quality product in accordance with the production requirements.
 3. Monitoring the process during manufacture to ensure total process control is maintained.
 4. Ensuring an energetic pursuit of improved methods.
 5. Ensuring that the required Quality standards are achieved by strict adherence to the relevant company procedures.
 6. Ensuring that high standards of safety and housekeeping are maintained within the manufacturing area.
 7. Ensuring that preventative maintenance schedules are strictly carried out.
 8. The Maintenance of CNC Programs, tooling and fixturing records within the cell.
 9. Ensuring that information relating to the manufacturing process is accurately recorded, maintained and updated to reflect current practice.
 10. Ensuring that CNC programs are regularly backed up to a safe location.
- **Effectively working with Team Leader to achieve business requirements.**
 - In addition to these duties, the role holder may be required to carry out other duties as may reasonably be required.
